

## **Leonardo-Finmeccanica: first Royal Navy AW101 Merlin Mk4 makes its maiden flight**

- **The UK Defence Equipment & Support (DE&S) expressed appreciation for the milestone**
- **First of 25 Royal Navy AW101 Merlin helicopter upgrades completed as part of the UK MoD Merlin Life Sustainment Programme (MSLP) contract awarded in January 2014**
- **Delivery of the 25 aircraft will take place between 2017 and 2020**
- **The AW101 Merlin Mk4 will deliver enhanced capability for the Royal Navy's Commando Helicopter Force and benefit from commonality with the Merlin Mk2**

**Rome, 21 November 2016** – Leonardo-Finmeccanica announced today the first AgustaWestland AW101 Merlin Mk4 successfully completed its maiden flight on 24<sup>th</sup> October 2016 at its Yeovil facility in southwest England. Leonardo is upgrading 25 Royal Navy Merlin Mk3/3A aircraft to Merlin Mk4/4A standard as part of the Merlin Life Sustainment Programme (MLSP) contract. The MLSP contract is valued at £330 million and was awarded in January 2014 by the UK Ministry of Defence (MoD). Deliveries of aircraft will start in 2017 and continue through to 2020 with the work being performed at Leonardo's Yeovil facility.

The AW101 Merlin Mk4/4A aircraft are fully optimised for ship operations and includes automatic main rotor blade folding and tail fold. The aircraft are also fitted with the same cockpit as the Royal Navy's Merlin Mk2 aircraft, giving the Merlin fleet a common cockpit featuring five 10" x 8" integrated display units, two touch screen units for controlling the aircraft's systems and mission equipment, as well as two cursor control devices for cursor control of the tactical displays. The AW101 Merlin Mk4 will deliver enhanced capability for the Royal Navy's Commando Helicopter Force. The Merlin Mk4 and Mk4A aircraft will be supported through the existing Integrated Merlin Operational Support (IMOS) contract, which has been in place since 2006 with Leonardo as prime contractor.

Royal Navy Captain Kieran O'Brien, the Defence Equipment & Support (DE&S) Merlin Helicopter Project Team Leader, said: "This is a great day and a most significant achievement in the Merlin Life Sustainment Programme. The conversion of the Mk3/3a Merlin to Mk4/4a has been a real success story so far against demanding timelines and this first flight is excellent news for our Royal Navy 'Junglie' customers. The work that goes into preparing for the first flight of a new mark of aircraft is never trivial and this milestone is only made possible due to an excellent team effort led by DE&S and Leonardo Helicopters. We still have a lot of work to do but when the programme is complete the Commando Helicopter Force (CHF) will have a very capable Commando Helicopter aircraft ready to fully operate in its maritime environment."

### **Note**

Following the process of the reorganisation of the **Leonardo-Finmeccanica** Group's companies, it should be noted that from January 1<sup>st</sup> 2016: the "Helicopters" division has absorbed the activities of AgustaWestland; the "Aircraft" division has absorbed part of the activities of Alenia Aermacchi; the "Aero-structures" division has absorbed part of the activities of Alenia Aermacchi; the "Airborne & Space Systems" division has absorbed part of the activities of Selex ES; the "Land & Naval Defence Electronics" division has absorbed part of the activities of Selex ES; the "Security & Information Systems" division has absorbed part of the activities of Selex ES; the "Defence Systems" division has absorbed the activities of OTO Melara and WASS.

**Leonardo-Finmeccanica** is among the top ten global players in Aerospace, Defence and Security and Italy's main industrial company. As a single entity from January 2016, organised into business divisions (Helicopters; Aircraft; Aero-structures; Airborne & Space Systems; Land & Naval Defence Electronics; Defence Systems; Security & Information Systems), Leonardo-Finmeccanica operates in the most competitive international markets by leveraging its areas of technology and product leadership. Listed on the Milan Stock Exchange (LDO), at 31 December 2015 Finmeccanica recorded consolidated revenues of 13 billion Euros and has a significant industrial presence in Italy, the UK and the U.S.
